

Remember first thing is to get everyone into Ottawa and settled and then we will distribute the trucks where they will be most effective  
amazon, the media, and parliament

Has anyone contacted Ron Barr Truckers union president?

Has anyone contacted Maxim Bernier the leader of the PCC who ran against Trudeau last election?

Canadian tire centre will NOT allow us on their property even if we paid and cleaned the snow

NCC land will be unavailable outside of 60 days notice

City of Ottawa properties request will have to go to committee before they can approve anything (BUT we can use their parking lots to park but not loiter)

OPS OPP NCC and the city of Ottawa will be meeting tomorrow morning to discuss our arrival I have told them to work with us will be easier than against us lets hope they change their minds

Farmland is being acquired

Snow removal is being procured ready to go where needed

Arnprior airport is available to rent. the runway if needed to house the truckers overnight next to antrim truck stop for anyone heading east on 417

(we would have to clear the snow)

## Plan A

- The first 500 trucks will roll to parliament after that it will be completely blocked (maybe even multiple routes but NO semis with trailers)
- The remaining trucks will then be sent to multiple areas such as farm land, public parking lots, wal-marts but still to be determined
- Our trucks are intended to be seen from the highway and we schedule different locations everyday with bodies trucks and 4 wheelers at various locations (medium Visibility but law abiding)

## Plan B

- We still occupy parliament but park our trucks safely on the highways 416 and 417 and we pick everyone up leaving space for multiple vehicles between trucks in case of emergency drivers will only exit the passenger to avoid any accidents  
We will have a plan in place that if we get a significant snowfall that we allow the snowplough's to do their job hopefully working together with the city of Ottawa (highest visibility but safety concern for our truckers)

## Plan C

- We occupy anywhere and everywhere we can possibly go, such as: road ways, highways, parliament, Public properties and ncc parking lots (high visibility breaks the law and risk our image)
